

# NEVER WORRY ABOUT TRANSFORMER MAINTENANCE AGAIN

Your transformers are expected to deliver optimal performance day in and day out. They must meet not only your high expectations for power delivery, but those of your customers as well.

Our mission is to keep your transformers up and running without interruption with our testing, maintenance and repair services. And in emergency situations, High Voltage Service can respond quickly to get your operation back up and running.

### MINIMIZE TRANSFORMER DOWNTIME

We can help you prevent downtime by implementing a regular transformer maintenance schedule based on our own maintenance and testing guide and NETA recommendations. Think of us as the problem solver for transformer replacement, commissioning, testing, and maintenance. High Voltage Service offers a wide range of electrical facility services drawing on the experience and expertise of our professional staff of engineers and technicians.

### Here are just a few of the reasons to choose High Voltage Service Transformer Solutions:

- An unparalleled safety record based on experience and careful planning.
- Preventive maintenance that ensures your transformers run efficiently.
- Maintenance schedules based on industry-accepted standards and recommendations .
- Service programs designed to increase the longevity of your transformers.
- Testing and assessment to ensure employee safety and increase regulatory compliance.

High Voltage Service has delivered electrical power solutions to thousands of customers throughout the United States since 1981. We specialize in low, medium, and high voltage electrical testing, repair services, and engineering for your electric distribution system.

Over the years, we've expanded our capabilities and added facilities to become an all-inclusive service provider specializing in electrical power solutions for your systems.

### OUR GUARANTEE

Your satisfaction with High Voltage Service is 100% guaranteed. When you work with High Voltage Service, you'll receive quality electrical power solutions that are second to none. We strive to continually improve our long-term, trusting relationships with our customers.
